

## OUR HISTORY

---

Venta Preparatory School was founded in 1981 by Dr. Agatha Sidlauskas. A co-educational, day and boarding school for students from Grade 1 to Grade 10, Venta has limited its student population of approximately 90 students.

The founding of Venta Preparatory School was the realization of a long-standing dream of Dr. Sidlauskas to create an environment in which children receive the guidance and protection from distracting forces in order to develop to their highest potential. To this end, Venta provides an enriched and engaging curriculum to sustain motivation and help our students to establish a strong work ethic and appropriate basic skills.

It is our belief that main stream schools cannot provide individualized assistance to many bright children who, according to common wisdom, should be able to manage on their own.

Parents concerned with the quality of their children's education expect more, and come to Venta to find it.

## OUR PHILOSOPHY

---

At Venta, we're focused on teaching the child, rather than delivering the curriculum. This can only be done in a small classroom, where the teacher can establish a personal relationship with each student. Many students are on individual programs depending on their strengths and weaknesses. In any given subject, it's not uncommon to have as many as three or four groupings per class.

We believe that it is most important to teach children how to learn and to give them a love of learning. The formation of good work habits and methods of learning is essential. We work with our students to help them become motivated and responsible learners.

It is important to instil in them a sense of personal achievement and commitment. We give them every opportunity to reach their personal potential, and never underestimate what they can do if they're challenged. In the end, they will graduate from Venta with a healthy level of self-esteem and the motivation to achieve and succeed.

Venta develops student talents - following the school motto "Let the Talent Soar!"
